PROFESSIONAL SUMMARY

Computer Science student at Western University with experience in Python, Java, and web development. Possesses a solid foundation in object-oriented programming, Linux systems, and debugging complex problems.

PROJECTS

Personal Website – *Link to project* HTML, CSS, JavaScript

- Designed and published a responsive website with page transitions and a working, validated contact form, hosted on GitHub Pages.

Arduino Telescope Tracker Arduino, C++ · In progress

- Designing software to control stepper motors for tracking, including timing, button input, and debounce handling.

Mine Escape Java · Course project

- Used depth-first search and recursive backtracking to find a path through a grid, with a dynamically resizing generic stack.

Class Schedule Calendar Script Python

- Wrote a script that turns class dates, times, and locations into an Apple Calendar file.

SKILLS

Languages/Tools: Python, Java, JavaScript, HTML, CSS, C (introductory), Linux (Ubuntu), Docker, Git, SSH, VS Code
Skills: Debugging, Communication, Time Management, Teamwork, Self-Learning, Photo and Video Editing

EXPERIENCE

Construction Delivery Coordination London, ON
Project Support 2026

- Coordinated incoming truck deliveries and material supply, tracking timing and keeping the crew updated as on-site needs changed.

ChickPz London, ON
Fast Food Attendant Jul 2024

- Prepared food and served customers in a fast-paced kitchen while following food-safety standards.

EDUCATION

Western University Sep 2025 – Present
Bachelor of Science, Specialization in Computer Science London, ON

- Relevant courses: Computer Science 1026, 1027, 2211, Data Science 1000, Calculus 1000, Mathematics 1600.

Mother Teresa Catholic Secondary School 2025

VOLUNTEERING

Western University Science Olympics – *Event Volunteer* 2026

London Ukrainian Centre – *Spring Market Cashier* Apr 2024

Peer Tutoring – *Free tutoring for high-school and first-year students*
